Coordinated Planning

**Consolidated Plan for Housing and Community Development**
Required of CDBG/HOME recipients
- 5-year planning cycle
- Quantitative and Qualitative data on needs of low-moderate income residents, businesses, and communities
- Specific data on seniors, persons with disabilities, persons experiencing homelessness, and veterans
- Outreach to public and private sector stakeholders

**Community Action Plan**
Required of CSBG recipients
- 3-year planning cycle
- Quantitative and Qualitative data on needs of persons below 125% of Federal Poverty level
- Outreach to public and private sector stakeholders
The purpose of Impact DuPage is to create a common understanding of community needs, gaps and priorities that will advance the well-being of the DuPage County community.

To achieve this, Impact DuPage will engage community stakeholders in a coordinated approach to ongoing community needs assessment, resulting in data-driven solutions to address county priorities, align resources, and improve population level outcomes.

Impact DuPage Priorities 2019 to 2021

Data from the Forces of Change Assessment, Landscape Review, Local System Assessment, and Community Profile were used to identify strategic issues that must be addressed in order for Impact DuPage to achieve its vision of “creating a common understanding of community needs, gaps, and priorities that will advance the well-being of the DuPage County community.” This prioritization process was achieved through two meetings of the Impact DuPage Steering Committee.

Affordable Housing
How do we develop affordable housing that meets the demographic profile of the county?

Behavioral Health
How do we strengthen prevention and treatment of behavioral health issues for residents of DuPage County?

Health Status Improvement
How do we build a person-centered model of healthcare that is efficient and effective, creates meaningful access to care for all, and demonstrably improves health status?
Frequent Users Systems Engagement

• Provides supportive housing to individuals who cycle between incarceration, homeless shelters, and emergency room/hospitalizations

• Requires significant data sharing, client engagement and service coordination

• NYC evaluations have shown
  40% decrease in jail stays
  91% decrease in shelter stays
  50% decrease in hospitalizations

• “Wrong Pocket” challenge
